

OUT OF THIS WORLD

From left, Clara Long gets congratulations from long time friends Leyah Kazmierczak and Audrey Guerrero after the Bonham Middle School student found out that a Mission Patch that she designed will fly on the International Space Station after designing her patch in the Student Spaceflight Experiments Program art and design competition. Gonzales Elementary School first-grader Paisley Valenzuela also had a patch that she designed selected and will also fly on the ISS.

Close up of Clara Long's patch and certificate. Bonham Middle School student Clara Long found out that a Mission Patch that she designed will fly on the International Space Station after designing her patch in the Student Spaceflight Experiments Program art and design competition.
